What is War Child Canada?

Founded in 1999, War Child Canada has extensive experience in the delivery of complex international development programs for war-affected children, youth, and their communities. War Child Canada programs over the past several years have achieved impressive results, reaching over 100,000 vulnerable children and women every year.

War Child Canada strives to address one of the greatest challenges facing humanity today: the impact of war on children.

Did you Know?

1. More than 2 million children have died as a direct result of armed conflict over the last decade.
2. An estimated 20 million children have been forced to flee their homes because of conflict and human rights violations.
3. Children and youth are forced to contend with the presence of landmines, malnutrition, and an increased risk of illness and disease.

War Child Canada's programming is groundbreaking, innovative, and dynamic.

By working with marginalized children in insecure environments in a genuinely participatory manner, and by engaging young people in North America in ways that are relevant and appealing to them to affect change on global issues, War Child Canada maintains a strong youth perspective that few other organizations can achieve.

International Programs

War Child Canada's success and high level of effectiveness can be attributed to its three-pronged approach to international humanitarian programming: access to education, livelihoods training and legal protection

War Child Canada is currently active in:

1. Afghanistan
2. Ethiopia
3. Democratic Republic of Congo
4. Uganda
5. Sierra Leone
6. Sudan
7. Sri Lanka
8. Haiti

In these countries, War Child Canada is working with the most vulnerable members of the population: former child soldiers, children and youth orphaned by HIV/AIDS, street children, refugees and internally displaced children, amongst others.

War Child Canada's strong and respectful relationships with local partners enable the organization to continue programming during some of the most difficult periods of conflict when many other organizations are not able to effectively operate, or are unwilling to implement due to the extreme insecurity.

War Child delivers highly effective and sustainable programming to war-affected children and youth overseas, build the capacity of local partners, leverages the interests of governments and the media on issues relating to war-affected children, and provides youth in Canada with a role in keeping war-affected children on local, national, and global agendas.
